## Overview & Resources

The School Performance Reports reflect the New Jersey Department of Education's (NJDOE) commitment to providing parents, students, and school communities with a large variety of information about each school and district. These reports can be used as a tool to help evaluate whether all students have equitable access to high quality education. We encourage you to use these reports to:

- **Learn more** about the school and the district
- **Start conversations** with school community members and ask questions
- **Engage** with school communities to identify where schools are doing well and where they can improve

**Important Notes for 2019-2020:** The ongoing COVID-19 pandemic has had a significant impact on the way the NJDOE was able to measure school performance and student achievement for the 2019-2020 School Performance Reports. Some data is not available at all and other data, while available, may not look the same as it did in prior years. The NJDOE also recognizes that our existing data can't begin to measure the hard work and perseverance of the students, families, educators and community members during this difficult year. This past year has been unlike any other, and the NJDOE believes that it is critical to use the available data in the reports, along with other information collected directly within districts and communities, to start conversations, identify gaps in information, and begin to find ways to address the impacts of COVID-19 and ensure all students receive the support that they need.

The 2019-2020 School Performance Reports will not include the following data elements:

- Statewide assessment participation and performance (NJSLA, DLM, ACCESS for ELLs)
- Student growth Data
- Chronic absenteeism rates
- Progress toward English language proficiency
- ESSA Summative ratings or indicator scores
- Status in meeting annual targets or standards for ESSA indicators

A new "[Impact of COVID-19 on Data Availability](#)" resource summarizes which data is available, which data is not available, and which data may have been impacted. Notes are included throughout the School Performance Reports and the Reference Guide to explain where data is missing or impacted by COVID-19. Look for "Important Note for 2019-2020" sections.

### School Performance Report Resources:

## Student Growth

Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels:

**Low Growth:** Less than 35

**Typical Growth:** Between 35 and 65

**High Growth:** Greater than 65

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short [video about Student Growth Percentiles](#) that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

**Important note for 2019-20:** Due to the cancellation of statewide assessments as a result of the COVID-19 pandemic, student growth percentile were not calculated and will not be reported for the 2019-20 school year. Tables showing 2019-20 median student growth percentiles and other measures of student growth will not be included in this report.

## Academic Achievement

**Important note for 2019-20:** Due to the cancellation of statewide assessments and a federal waiver as a result of the COVID-19 pandemic, statewide assessment results for the New Jersey Student Learning Assessments (NJSLA), Dynamic Learning Maps (DLM), and ACCESS for ELLs assessments and related accountability measures are not available and will not be reported for the 2019-20 school year. Tables showing 2019-20 statewide assessment results and related accountability measures will not be included in this report.

### English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the statewide assessment (NJSLA for 2018-19 and PARCC for 2017-18) and the DLM alternate assessment. The Proficiency Rate for Federal Accountability measures the percentage of students that met or exceeded expectations on the assessments (NJSLA/PARCC or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. NJSLA/PARCC results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

**Important note for 2019-20:** Due to the cancellation of statewide assessments and a federal waiver as a result of the COVID-19 pandemic, statewide assessment results are not available.

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency with the New Jersey Student Learning Standards for Science. All students in grades 5, 8, and 11 will take the NJSLA-Science assessment. Students receive a score of Level 1, 2, 3, or 4 where levels 3 and 4 represent proficiency. Visit the [NJSLA-Science website](#) for more information about NJSLA-S. These results do not include students that took the Dynamic Learning Maps (DLM) Science assessment, visit the [assessment reports page](#) for DLM results.

**Important note for 2019-20:** Due to the cancellation of statewide assessments and a federal waiver as a result of the COVID-19 pandemic, statewide assessment results are not available for 2019-20. Tables showing 2019-20 NJSLA Science assessment results will not be included in this report.

### NJSLA Science Assessment: Grade 5 Summary

## Climate and Environment

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

**Important Note for 2019-20:** Due to the COVID-19 pandemic, NJDOE received a federal waiver which removed the requirement to report on chronic absenteeism and related accountability measures for the 2019-20 school year. As a result, NJDOE will not report on chronic absenteeism and other attendance data for 2019-20. Tables showing 2019-20 attendance data will be hidden in this report.

## Climate and Environment

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), starting in 2017-18, which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. Comparing current data to data from 2016-17 and earlier could lead to inaccurate conclusions in many reporting categories. In addition to the 2018-19 data below, NJDOE is required, under ESSA, to report on the most recent, publicly-available Civil Rights Data Collection (CRDC) data, which can be found on the [NJDOE School Performance webpage](#). Please note that prior to school year 2017-2018, the CRDC and the State collection system, EVVRS, did not collect the same data elements. In an effort to better align the State system with the CRDC, the new Student Safety Data System (SSDS) collects all the required CRDC data elements. NJDOE is in the process of developing a reporting function for the SSDS which will allow LEAs to use the same data for both submissions.

**Important note for 2019-20:** Due to school closures as a result of [Executive Order 107](#), discipline data for the 2019-20 school year may not be comparable to prior or future school years and NJDOE recommends caution in making comparisons.

### Violence, Vandalism, HIB, and Substance Offenses

## Staff

Staff data reflects teachers and administrators reported by districts at the beginning of the school year.

**Key terms for staff data:**

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Experience:** Experience is based on information submitted by districts on all their staff members. For purposes of this report, the ESSA Educator Equity and federal reporting requirements, NJDOE has defined teachers as "inexperienced" if they have fewer than four years of prior experience in a given district. The tables below report on "experienced" teachers and administrators for federal reporting purposes.

**Out-of-Field:** A teacher is labeled "out-of-field" if they are potentially teaching outside their area of certification. This could occur if the teacher cannot be found in the NJDOE's certification system, if their job code does not match their certification, or if the teacher has an expired certificate.

### Teachers – Experience

This table shows information about the experience of teachers assigned to this district and across the state. No teachers in New Jersey are teaching under emergency or provisional credentials as defined the United States Department of Education. The number of out-of-field teachers is the number of teachers who are potentially teaching outside of their area of certification.

Category	Teachers in District	Teachers in State
Total Number of teachers	44	119,170
Average years experience in public schools	14.1	12.3
Average years experience in district	12.6	11.0
Percentage of Teachers with 4 or more years experience in the district	90.9%	75.8%
Number of out-of-field teachers	0	2,276

### Administrators – Experience (District Level)

This table shows information about the experience of administrators assigned to this district and across the state.

Category	Admin. in District	Admin. in State
Total Number of administrators	4	9,574
Average years experience in public schools	20.8	16.2

This could occur if the teacher cannot be found in the NJDOE's certification system, if their job code does not match their certification, or if the teacher has an expired certificate.

### Teachers and Administrators – Demographics

This table compares the percentage of students, teachers, and administrators by gender and by racial and ethnic group. Note that 2019-20 is the first year that data was collected for non-binary/undesignated gender and, as a result, the 2019-20 data may not be a true representation of the student or staff population. Additionally, to protect student privacy, gender percentages for 2019-20 are rounded to the nearest 0.5.

## Staff

Staff data reflects teachers and administrators reported by districts at the beginning of the school year.

**Key terms for staff data:**

**Teachers:** All classroom teachers

**Administrators:** Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

**Experience:** Experience is based on information submitted by districts on all their staff members. For purposes of this report, the ESSA Educator Equity and federal reporting requirements, NJDOE has defined teachers as "inexperienced" if they have fewer than four years of prior experience in a given district. The tables below report on "experienced" teachers and administrators for federal reporting purposes.

**Out-of-Field:** A teacher is labeled "out-of-field" if they are potentially teaching outside their area of certification. This could occur if the teacher cannot be found in the NJDOE's certification system, if their job code does not match their certification, or if the teacher has an expired certificate.

### Teachers and Administrators - Level of Education

This chart shows the highest level of education attained by teachers and administrators. The Bachelor's category may include other degrees/certificates such as a Specialist's degree. Administrators are required to have a Master's degree or higher.

### Teachers and Administrators - One-Year Retention (District Level)

This table shows the percentage of teachers and administrators assigned to this district in 2018-19 that were still assigned to this district in 2019-20. Staff who were not retained may have changed districts or no longer work for the state (including retirements).

Job Type	District	State
2018-19 Teachers: Same district 2019-20	91.7%	90.7%
2018-19 Administrators: Same district 2019-20	80.0%	87.8%

## Per-Pupil Expenditures

### Per-Pupil Expenditures by Source

The link below produces a table summarizing the most recently available expenses for regular and special education students taught at schools in the district. The amounts shown include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities.

For more information regarding this table please refer to the guidance for school level reporting, which is available on the [NJDOE webpage ESSA School Level Reporting Information](#). More in-depth information about district and charter school spending can be found in the [User Friendly Budget](#) and the [Comprehensive Annual Financial Report \(CAFR\) and Auditor Management Reports \(AMRs\)](#).

*Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.*

An option to [download all school-level summaries by district](#) in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

## Accountability

### **New Jersey's Every Student Succeeds Act (ESSA) Accountability System**

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). Based on New Jersey's [approved ESSA state plan](#), NJDOE will identify schools in the following four federal categories every three years:

- **Comprehensive Support and Improvement (CSI): Overall Low Performing:**
  - Schools with a summative score in the bottom 5% of Title I schools.
- **Comprehensive Support and Improvement (CSI): Low Graduation Rate:**
  - High schools with a four-year graduation rate of 67% or less
- **Additional Targeted Support and Improvement: Low Performing Student Group (ATSI):**
  - Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools
- **Comprehensive Support and Improvement (CSI): Chronically Low Performing:**
  - Title I schools identified as Additional Targeted Support and Improvement; Low Performing Student Group (ATSI) that are identified for three or more consecutive years, i.e. ATSI schools that do not meet exit criteria.
  - The NJDOE has not yet identified schools in this category as no ATSI schools have been in status for three or more years.

Annually, NJDOE will identify schools in the following federal category:

- **Targeted Support and Improvement: Consistently Underperforming Student Group (TSI):**
  - Schools with one or more students group that missed annual targets or standards for all indicators for two years in a row

For purposes of ESSA accountability, only schools and student groups with data for 20 or more students are included in calculations.

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, how federal accountability status is determined, and [statewide progress toward long-term goals](#), see these [accountability resources](#).

**Important Note for 2019-2020:** Due to the COVID-19 pandemic, New Jersey received a [waiver from the United States Department of Education \(USED\)](#) in March 2020 to waive statewide assessment, accountability, and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year. This removes the requirement to:

- Calculate indicator scores and summative scores for the 2019-2020 school year;
- Measure progress toward long-term goals and measures of interim progress for accountability indicators for the 2019-2020 school year; and
- Identify schools for comprehensive and targeted support and improvement during the 2020-2021 school year (based on 2019-2020 data).

As a result of the March 2020 waiver, any school that was identified for comprehensive or targeted support and improvement during the 2019-2020 school year for support during the 2020-2021 school year will retain the same status for the 2021-2022 school year and continue to receive support and interventions from the NJDOE.

For the categories that are identified every three years, the last identification occurred in the 2018-2019 school year (based on 2017-2018 data) and the next identification was scheduled for the 2021-2022 school year (based on 2020-2021 data). Due to the COVID-19 pandemic and associated federal waivers, New Jersey has submitted a proposed addendum to New Jersey's consolidated state plan to delay the next identification until the 2022-2023 school year (based on 2021-2022 data) and also delay the exit of all currently identified schools to align with the next identification.

For the annual identification of schools for Targeted Support and Improvement: Consistently Underperforming Student Group, no schools will be identified during the 2020-2021 school year as a result of the March 2020 waiver. New Jersey has submitted a request to USED to waive the next identification in the 2021-2022 school year due to the lack of two consecutive years of data.

Because these requests to adjust exit dates are dependent on approval by USED, exit dates are not included in the 2019-2020 reports. Updated exit dates will be shared directly with districts when they are finalized. Check the [accountability resources](#) page for current information.

The 2019-2020 Accountability Indicator Scores and Summative Ratings and Accountability Summary by Student Group tables will not be included in the report for 2019-2020 as these tables include indicator scores, summative scores, and progress toward long-term goals and those measures were waived under the March 2020 waiver.

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years. ELA and Math Proficiency represent the percentage of students that met or exceeded expectations on statewide assessments (NJSLA/PARCC or DLM). ELA and Math Growth represent the median student growth percentile. Four- and five-year graduation rates represent the adjusted cohort graduation rates. Progress toward English Language Proficiency, which was first available in 2017-18, shows the percentage of English Learners that demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Chronic absenteeism represents the percentage of students that were absent for 10% or more of the days enrolled during the school year.

ESSA Accountability Indicator	2017-18	2018-19	2019-20
ELA Proficiency	49.6%	57.8%
