September 9, 2021

Dear Parents/Guardians,

Unfortunately, we have been informed an individual has tested positive for COVID-19 at Blairstown Elementary School. Anyone who has been determined to be a close contact has been informed.

The school continues to follow our cleaning and sanitizing procedures throughout the day. Therefore, at this time there will be no change to our instructional schedule. We will continue to monitor things closely and inform you of any changes.

We ask that you continue to monitor your family and inform us of any symptoms or positive test results that arise. As always, we appreciate your support and cooperation.

Please reach out to us with any questions or concerns.

Thank you,

Dr. Patrick Ketch
Superintendent
