PHILOSOPHY

As early childhood educators, we believe that school for each child should be a positive and successful experience. Our goal is to provide a safe environment that will stimulate enthusiasm and eagerness for learning and foster each child's creativity.

Children will be encouraged to explore, create, and experience multi-sensory activities using a variety of materials and equipment. Language, social, motor, self-help, and academic readiness skills will be fostered along with creative arts. Classroom routines will inspire active involvement, while health and safety are emphasized. Students' individual differences, needs, learning styles, and interests will be integrated into the program.

The Preschool Program will offer children the opportunity to learn, work and play with their age-appropriate peers.
